## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Considering independent claim 5 from which claims 6-10 depend, the recited limitation, "while the lines or valves to be cleaned...during transportation of said polymers" is not clearly understood, if not awkwardly stated. In this recitation, what does it mean by "at plus/minus 10 degrees centigrade of the temperature at which they operate during transportation of said polymers? How is this 10 degrees centigrade maintained? Also, it is not clear as to how the housing is heated and what relationship it has with the 10 degrees centigrade.

Clarification of the above noted observations is requested.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
